Special exception permits shall be granted only when the location of each such use shall have been approved in writing by the Sauk County Board of Adjustment, after public hearing, and after a view of the proposed site or sites. Any permits issued shall be consistent with the general purpose and intent of this district and ordinance and shall be based on such evidence as may be presented at the public hearing in consideration of the following relevant factors:

- (a) Potential for conflict with agricultural use.
- (b) Need of the proposed use for a location in an agricultural area.
- (c) Availability of alternative locations.
- (d) Compatibility with existing or permitted uses on adjacent land.
- (e) Productivity of the lands involved.
- (f) Location of the proposed use so as to reduce to a minimum the amount of productive agricultural land converted.
- (g) Need for public services created by the proposed use.
- (h) Availability of adequate public services and the ability of affected local units of government to provide them without an unreasonable burden.
- (i) The effect of the proposed use on water or air pollution, soil erosion and rare or irreplaceable natural areas.

(5) Standards for rezoning. The Agency may approve petitions for rezoning lands out of the Exclusive Agricultural District upon finding that such a rezoning is in the public interest after consideration of the following factors:

- (a) Adequate public facilities to accommodate development either exist or will be provided within a reasonable amount of time as determined by the Agency.

(b) Provision of public facilities to accommodate development will not place an unreasonable burden on the ability of affected local units of government to provide such facilities.

(c) The land proposed for rezoning is suitable for development and development will not result in undue water or air pollution, cause unreasonable soil erosion or have an unreasonably adverse effect on rare or irreplaceable natural areas.

(d) Potential conflict with remaining agricultural lands and uses in the area.

Certificates for tax credit purposes will be issued only for land which is following a conservation program which results in a soil loss equal to or less than "T" (allowable soil loss) as defined by the Soil Conservation Service, U.S.D.A. Developing and following a Soil Conservation Service farm conservation plan is suggested as a method of meeting this requirement. The Agency members will judge substantial compliance with this standard. Prior to finding a landowner in violation of this section, the Agency members shall notify the landowner in writing of any alleged violation, specifying the grounds of the violation, and shall afford the landowner an opportunity for a hearing. Violation of the soil conservation standard shall be considered a violation of the zoning ordinance and shall be sufficient reason for refusal to issue a zoning certificate for tax credit purposes.

7.06 Rural Community District (1)
Purpose. To identify those areas that were historically developed as small, compact centers, typically defined as an unincorporated village and which consist predominately of a residential

character but with a core of mixed-use commercial, residential, and community services. These centers incorporate local-scale economic and social functions that are integrated with the housing. The unincorporated village typically has a recognizable center, discrete physical boundaries, and a pedestrian scale and orientation. Through the designation of unincorporated villages, this district will provide a means to maintain and rebuild these core mixed-use centers consistent with their traditional character as well as provide an opportunity for the expansion of the core mixed-use center and contiguous residential areas utilizing the pedestrian scale and orientation.

(2) Use. In this district no structure or premise shall be erected, moved or structurally altered unless otherwise provided in this ordinance, except as provided below:

(a) Permitted Uses. Any permitted use in the Single-Family Residential District.

(b) Special exceptions. The Sauk County Board of Adjustment, after investigation, viewing of the proposed site(s) and public hearing may authorize the location of any of the permitted or special exception uses in the Multiple-Family, Recreational-Commercial or Commercial Districts that are consistent with the applicable comprehensive plan(s). The approved use shall comply with all the regulations provided within the applicable zoning district and any reasonable conditions or safeguards that the Board may impose that are in keeping with the general intent and purpose of this ordinance which do not significantly injure the public health, safety or welfare.

(3) Heights, yards, area and other requirements.

7.12 Planned Unit Development

(PUD) (1) Purpose. The PUD is meant to encourage flexibility in the development of land that may be necessary to permit adjustment to changing public and private needs; to foster the ability to provide development patterns which are more compatible with and effective in meeting such needs, to promote the more efficient use of land so as to preserve and enhance the natural characteristics and unique features of a property; to site development in a location that does not diminish the local character and which preserves agricultural lands and environmentally sensitive areas; to limit the number, size and location of lots to minimize the impacts associated with rural development; to encourage integrated planning to achieve the objectives of the Sauk County Comprehensive Plan, local municipal comprehensive plans and the Sauk County Agricultural Preservation Plan; to preserve open and agricultural areas; to facilitate the adequate and economical provision of streets and utilities; and to conserve the value and character of land. The PUD will allow for flexibility in increasing the intensity of development, while at the same time

maintaining the density and use requirements set forth in the applicable zoning district, comprehensive plan(s) or provisions set forth in the Sauk County Agricultural Preservation Plan, whichever is more restrictive.

(2) Uses. Uses permitted in a PUD shall conform to uses generally permitted in the applicable zoning district with the following exceptions:

(a) PUD Development Areas

1. Cluster Development

a. One single family residential dwelling unit shall be permitted for each density credit as defined in Section 7.12(5)(a) and the applicable comprehensive plan(s), or the Sauk County Agricultural Preservation Plan, whichever is more restrictive. For parcels within the Exclusive Agricultural District, dwelling units shall not be allowed in the principal conservation area.

b. The raising or keeping of farm animals is permitted contingent upon the following:

i. That the parcel is one (1) acre or greater.

ii. Development and approval of a nutrient management plan by the Sauk County Land Conservation Department.

iii. The number of animals shall not exceed one animal unit per net acre based on the following ratios; one (1) animal unit equal 1 cow, 2 hogs, 2 sheep, 10 poultry, 1 horse, 1 pony, 1 mule, 10 rabbits, rounded down to the nearest whole acre. For animals not provided for herein and otherwise allowed under the applicable zoning district, the Department shall determine the number of allowed animal units based on a comparison of the animal to the ratios provided herein. Under no circumstances shall the number of animals constitute an unreasonable number that is inconsistent with the provisions of the Cluster Development. For purposes of this calculation, areas of building footprints and driveways shall be excluded from total lot acreage when determining animal units permitted.

c. Agricultural uses, provided that no building for the housing of livestock or poultry shall be located within 300 feet of any potable water well located on a separate residential or commercial lot other than the owner or lessee of such building containing such livestock or poultry.

2. Conservation Subdivision. Uses permitted within the Single-Family Residential District provided that one single family residential dwelling unit shall be permitted for each density credit as defined in Section 7.12(5)(b) and the applicable comprehensive plan(s).

(b) PUD Preservation Area

1. PUD Preservation Areas shall follow the permitted uses allowed within the applicable zoning district with the exception that residential structures and related accessory buildings shall not be permitted.

2. The raising or keeping of farm animals is permitted contingent upon the development and approval of a nutrient management plan by the Sauk County Land Conservation Department.

3. Agricultural uses and uses consistent with agricultural use shall be allowed, provided that no building for the housing of livestock or poultry shall be located within 300 feet of any potable water well located on a separate residential or commercial lot other than the owner or lessee of such building containing such livestock or poultry.

(3) Special Exceptions. Special exception uses permitted in a PUD shall conform to uses generally permitted in the applicable zoning district with the following exceptions:

(a) PUD Development Areas. Special exception uses permitted by the applicable zoning district shall be limited to:

1. Ponds or lakes within 110 feet of a road or property line.

2. Cottage industries in accordance with the definition of Section 7.02(25).

3. Governmental uses such as police and fire stations, highway storage garages, schools, parks and campgrounds, airports and landing strips.

(b) PUD Preservation Area. Special exception uses permitted by the applicable zoning district, except that a PUD Preservation Area zoned as Agricultural shall be limited to the special exception uses provided within the Exclusive Agricultural, Resource Conservancy-5 or Resource Conservancy-35 zoning districts.

(4) Heights, yards, area and other requirements.

(a) Height restrictions. Buildings erected on lands within a PUD shall not exceed a

height greater than the height permitted in the applicable zoning district.

(b) Lot area. The minimum lot area shall not be less than 20,000 square feet in a Conservation Subdivision and 43,560 square feet for a Cluster Development unless a greater minimum lot size is identified in the applicable comprehensive plan(s) or provisions set forth in the Sauk County Agricultural Preservation Plan, whichever is more restrictive, and provided that space is reserved for the installation of a primary and replacement POWTS.

(c) Lot coverage. No residential building together with any accessory buildings shall cover in excess of fifty percent (50%) of the lot area.

(d) Side yards. The standards of the Single-Family Residential District shall be applied, unless a ~~lesser~~ lesser amount is approved in writing by the Agency. Lots bordering lands that are currently used for agriculture or preserved as part of a forest management plan shall have a minimum 100 foot setback between residences and said lands.

(e) Rear yards. The standards of the applicable zoning district shall be applied, unless a ~~lesser~~ lesser amount is approved in writing by the Agency. Lots bordering lands that are currently used or preserved as part of an agriculture or forest management plan shall have a minimum 100 foot setback between residences and said lands.

(f) Highway setback lines. Highway setback lines shall be the same as those required in Section 7.18 except that the setback from class C highways may be reduced to 20 feet from the right-of-way for Conservation Subdivisions. Any reduction in right-of-way setback from those required under Section 7.18 must be approved in writing by the Agency.

(5) Density Policy. Density policies required as part of the application of a PUD shall be applied in accordance with the provisions of this Section in addition to Section 22.71 and shall further conform to the following standards:

(a) Cluster Development.

1. The density policy for Cluster Developments is one dwelling unit for each density credit as determined by the applicable zoning district, applicable comprehensive plan(s) or as provided by Table 3.1 *Town Plan Provisions* of the Sauk County Agricultural Preservation Plan,

whichever is more restrictive. The newly developed lot to accommodate the dwelling unit(s) shall not exceed five (5) acres unless additional density credits are utilized. The number of density credits utilized to establish the number, size of lots, and dwelling units shall not exceed the applicable zoning district's maximum density rounded down to the nearest whole number. For the purpose of this calculation, lands subject to a preexisting easement or other similar agreement for the purpose of eliminating development rights shall not be counted toward the calculation of density credits.

2. The density policy is defined by the number of credits calculated by the applicable zoning district, applicable comprehensive plan(s), or the Sauk County Agricultural Preservation Plan, whichever is more restrictive in effect at the time of such calculation.

3. Density credits may be utilized to establish a set number and size of lots or dwelling units for residential development purposes based on a maximum lot size of up to five (5) acres for each density credit. To determine the maximum allowable acreage for a PUD Development Area, multiply the number of density credits by five (5) acres.

4. Application of density credits, as defined in this ordinance, and of a corresponding PUD Preservation Area shall further be applied in accordance with Section 22.71.

(b) Conservation Subdivision.

1. The PUD Development Area(s) shall only be located within a Single-Family Residential District.

2. The density policy for a Conservation Subdivision shall require that forty percent (40%) of the total acreage of the original parcel be protected as a PUD Preservation Area while the remaining sixty percent (60%) of the total acreage of the original parcel may be utilized for the subdivision of lands, provided that the density shall not exceed one (1) acre per lot or dwelling unit placed on a lot within the PUD Development Area. The number of density credits utilized to establish the number and size of lots and dwelling units per lot shall not exceed sixty percent (60%) of the total acreage of the original parcel and rounded down to the nearest whole number.

(6) Procedure. The authority to approve Conditional Use Permits for the purpose of

establishing a PUD is hereby delegated by the Sauk County Board of Supervisors to the Agency. In order to create a PUD pursuant to Section 22.71, a Conditional Use Permit must first be obtained from the Agency. The procedure to acquire such a Conditional Use Permit for a PUD is as follows:

(a) The landowner shall consult with the Department to determine eligibility of establishing a PUD.

(b) The Department will determine if the land affected by a proposed PUD is subject to a Farmland Preservation Agreement with the Wisconsin Department of Agriculture, Trade and Consumer Protection. If said lands are subject to an Agreement, the landowner will be referred to the Wisconsin Department of Agriculture, Trade and Consumer Protection.

(c) Utilizing the density policy set forth in the applicable comprehensive plan(s), the applicable zoning district, or the Sauk County Agricultural Preservation Plan, whichever is more restrictive, a density calculation shall be conducted by the Department in order to determine the number of allowable lots and dwelling units within a PUD Development Area.

(d) An application for a Conditional Use Permit and PUD shall be made to the Agency on a form provided by the Department. The application shall be accompanied by the following information:

1. A Development Plan in accordance with the provisions of Section 22.31 which clearly delineates the Principal and Secondary Conservation Areas as well as the proposed PUD Development Area and PUD Preservation Area on a map that is no less than 11 inches by 17 inches with a scale of not more than 1 inch equals 400 feet.

2. A written description of how the proposed PUD protects Principal Conservation Areas and substantially protects Secondary Conservation Areas in accordance with the provisions of this ordinance, the Sauk County Agricultural Preservation Plan and the applicable comprehensive plan(s).

3. A copy of the density calculation developed under Section 7.12(6)(c).

4. Written verification that the land is not subject to a Farmland Preservation Agreement, or that said Agreement has been amended or relinquished by the Wisconsin Department of

Agriculture, Trade and Consumer Protection to permit a PUD.

5. A preliminary title report for all lands affected by a PUD Development Area and PUD Preservation Area, and where required, consent to a Preservation Area Easement from holder(s) of any liens that cannot be completely removed on a form acceptable to the Department.

6. A draft copy of the Preservation Area Easement in a form acceptable to the town in which the application is being made and Department.

(e) The Department shall submit a copy of the completed application to the town in which the application is being made for consideration of the Conditional Use Permit for a PUD.

(f) Following town action on the Conditional Use Permit, the application shall be presented to the Agency for consideration at a public meeting as provided by Section 22.22(3)(c).

(g) Upon approval of the Conditional Use Permit, the landowner may proceed to obtain a PUD pursuant to Section 22.71 that is inclusive of a Preservation Area Easement and the appropriate land division process.

(7) Standards for approving a PUD. The Agency may approve applications for a PUD as a Conditional Use pursuant to Wis. Stat. § 59.69(2)(bm) in the following districts: Single-Family Residential, Agricultural, Exclusive Agricultural, Resource Conservancy-35, and Resource Conservancy-5 upon finding that such PUD is in the public interest after consideration of the following factors.

(a) General Standards.

1. Adequate public facilities to accommodate development either exist or will be provided within a reasonable amount of time as determined by the Agency.

2. Provision of public facilities to accommodate development will not place an unreasonable burden on the ability of affected local units of government to provide such facilities.

3. The land proposed for a PUD is suitable for development and development will not result in undue water or air pollution, cause unreasonable soil erosion or have an unreasonably adverse effect on rare or irreplaceable natural areas.

4. Impacts on principal and secondary conservation areas as determined in

Section 22.31(5). For the purposes of applying this standard, Principal Conservation Areas shall be protected from residential uses while Secondary Conservation Areas shall be substantially protected from residential uses. Substantially protected areas shall only be part of a PUD Development Area if the remaining land within a parcel is considered a Principle Conservation Area, when it furthers the preservation of Principal Conservation Areas, or as determined necessary by the Agency when considering alternative locations.

5. Whether the development as proposed is located to minimize the amount of agricultural or forest land converted.

6. Compatibility with existing or permitted uses on adjacent land.

7. Productivity of land involved from an agricultural, forest and conservation perspective.

8. Provision of safe and adequate public and emergency vehicle access.

9. Consistency with all officially adopted local and county plans and ordinances.

10. On lands covered by a Farmland Preservation Agreement, the Agreement must have been referred to the Wisconsin Department of Agriculture, Trade, and Consumer Protection for determination of potential conflicts between a PUD and the terms of the Agreement. If such a determination is made, verification of release or modification and release shall be provided by the Wisconsin Department of Agriculture, Trade, and Consumer Protection for lands within PUD Development Areas before the PUD can be approved.

(b) Additional Standards for Exclusive Agricultural District. In addition to the standards listed in subsection (a) above, the Agency must consider the following standards for PUD applications within the Exclusive Agricultural District to comply with applicable portions of Wis. Stat. § 91.75.

1. The PUD complies with the definition of a “use consistent with agricultural use” pursuant to Wis. Stat. § 91.01(10) and any applicable portions of Wis. Stat. § 91.75. The Agency shall make written findings thereof as part of the record of its proceedings.

2. A PUD and related regulations shall be utilized in conjunction with provisions set forth in the Sauk County Agricultural Preservation Plan or the applicable comprehensive plan(s) and

ordinances. For areas zoned Exclusive Agricultural where the local comprehensive plan is less restrictive than the provisions of the Sauk County Agricultural Preservation Plan, the provisions of the Sauk County Agricultural Preservation Plan shall prevail.

3. The Wisconsin Department of Agriculture, Trade and Consumer Protection shall be notified by the Agency of all PUD approvals in areas zoned Exclusive Agricultural.

(8) A Conditional Use Permit approved pursuant to this Section shall be revocable by the Agency if the conditions imposed are violated.

7.13 General Provisions and Exceptions.

(1) Buildings and uses.

(a) No provision of this ordinance shall be construed to bar an action to enjoin or abate the use or occupancy of any land or structure as a nuisance under the appropriate laws of the State of Wisconsin.

(b) No provision of this ordinance shall be construed to prohibit the customary and necessary construction, reconstruction or maintenance of overground or underground public utility neighborhood service lines and mechanical appurtenances thereto, where reasonably necessary for the preservation of the public health, safety, convenience and welfare.

(c) The use of buildings hereafter erected, converted, enlarged or structurally altered and the use of any land shall be in compliance with the regulations established herein for the district in which such land or building is located.

(d) Every building hereafter erected, converted, enlarged or structurally altered shall be located on a lot and in no case shall there be more than one (1) main building on one (1) lot. Except that this provision shall not apply to Section 7.04 "*Multiple-Family Residential District*".

(f) Nonconforming uses:

1. The existing lawful use of a building or premises at the time of the enactment of

this ordinance or any amendment thereto may be continued although such use does not conform with the provisions of this ordinance for the district in which it is located, but no building or premises containing a nonconforming use shall be enlarged or extended.

2. If no structural alterations are made, a nonconforming use of a building may be changed to another nonconforming use of a more restricted classification. Whenever a nonconforming use has been changed to a more restricted nonconforming use or a conforming use, such use shall not thereafter be changed to a less restricted use. A nonconforming use shall not be changed to another nonconforming use of the same classification unless and until a permit therefore shall first have been secured from the Sauk County Board of Adjustment.

3. If the nonconforming use of a building or premises is discontinued for a period of 12 months, any future use of the building or premises shall conform to the regulations for the district in which it is located.

4. When a building containing a nonconforming use is damaged by fire, explosion, act of God or the public enemy to the extent of more than 60 percent (60%) of its current market value as determined by the local assessor, it shall not be restored except in conformity with the regulations of the district in which it is located. The total structural repairs or alterations in any nonconforming use shall not during its life exceed fifty percent (50%) of the market value of the building at the time of its becoming a nonconforming use unless permanently changed to a conforming use.

(g) Accessory buildings which are not a part of the main building shall not occupy more than 30 percent of the area of the required rear yard and shall not be nearer than three (3) feet to any line, except that where a private garage has an entrance facing on an alley, such entrance shall be located not less than ten (10) feet from the nearest alley line. The above area restrictions shall not apply to accessory buildings on farms, but such accessory buildings shall not be closer than 100 feet to any side lot line. Where an accessory building is a part of the main building or is substantially attached thereto, or is located partly or wholly in front of the rear wall of the main building, the side yard and the rear yard

requirements for the main building shall be applied to the accessory building.

(h) The Sauk County Board of Adjustment, after investigation and public hearing, may authorize the location of any of the following buildings or uses in any district from which they are excluded by this ordinance, provided that the Board shall find that the proposed location is necessary in order to serve the public health, safety, convenience and welfare, and provided further that each such building or use shall comply with all other regulations for the district in which it is proposed to be located and that in the Exclusive Agricultural District all structures and improvements must be consistent with agricultural uses as defined in Wis. Stat. § 91.01(10) and must meet all applicable standards in Wis. Stat. § 91.75. To protect the value of neighboring buildings or uses, the Board may attach reasonable conditions and safeguards, in line with the general purpose and intent of this ordinance.

7. Railroad siding and structures.
8. Sewage disposal plants.
9. Dependency Living Arrangements, provided that the following conditions are met as part of the approval of the Sauk County Board of Adjustment:

a. The arrangement shall be permitted only after a septic verification and/or a sanitary permit has been issued by the Department and subsequent issuance of a Sauk County Land Use Permit allowing the construction of the dependency living unit.

b. The arrangement shall be limited in duration such that when separate living space is no longer utilized that said living space shall be physically removed altogether from the primary dwelling or incorporated as part of the primary

dwelling, and which includes the complete removal of all kitchen facilities and common wall(s) originally separating the dependency living unit from the primary residence.

c. Upon cessation of use, the property owner shall to notify the Department as to the destined use of the dependency living unit as specified under above and shall seek a Sauk County Land Use Permit approving the proposed use of the dependency living unit.

d. The permit is issued to the owner(s) of the residence and is not transferable.

(i) The Sauk County Board of Adjustment, after investigation and public hearing, may authorize the change of a nonconforming use to another of the same classification, provided that the Board shall find that the proposed change of use will be no more harmful to the character of the neighborhood than the existing nonconforming use.

(j) **Intentionally omitted.** Signs.—~~The requirements and provisions of this ordinance shall apply to all signs adjacent to highways erected, moved, altered or reconstructed after the effective date of June 15, 1971, in any town which has adopted the County Zoning Ordinance and shall comply with all applicable regulations of the Wisconsin Statutes. SUBCHAPTER II SIGN REGULATIONS

7.22 Purpose and Findings.

(1) The purpose of this Subchapter II is to:

(a) Regulate signs in a manner that does not create an impermissible conflict with constitutional, statutory, or administrative standards or impose an undue financial burden on the people of Sauk County.

(b) Provide for fair and consistent enforcement of sign regulations under the County zoning authority.

(c) Improve the visual appearance of Sauk County while providing for effective means of communication and orientation, particularly in settings in which the need for communication and orientation is greater, consistent with the Sauk County Board findings that follow.

(d) Maintain, enhance, and improve the aesthetic environment of Sauk County, including its scenic views and rural character consistent with the *Sauk County Comprehensive*

Plan and Highway 12 Corridor Growth Management Plan and the purpose of each zoning district, by preventing visual clutter that is harmful to the appearance of the community, protecting vistas and other scenic views from degradation, and reducing and preventing commercialism in noncommercial areas.

(e) Promote public health, safety, and welfare in Sauk County by regulating the number, location, size, type, illumination, and other physical characteristics of signs within Sauk County.

(2) The Sauk County Board of Supervisors hereby finds as follows:

(a) Exterior signs have a substantial impact on the character and quality of the environment.

(b) Signs provide an important communication medium.

(c) Signs can create safety hazards that threaten public health, safety, and welfare. The threat increases when signs are structurally inadequate, confuse or distract drivers or pedestrians, or interfere with official directional or warning signs.

(d) Signs can threaten public welfare by creating aesthetic concerns and harming property values. These threats increase when an accumulation of signs results in visual clutter and detract from the character of the area.

(e) Sign related lighting can create public safety problems by excessively distracting drivers and causing unnecessary glare. Light pollution can detract from the natural environment and inhibit viewing night skies. This diminishes the enjoyment of night skies and impedes recreational and educational activities.

(f) Signs serving certain other functions, such as directional signs, are necessary to enable visitors and residents to efficiently reach their destinations.

(g) Sauk County's land use regulations have included the regulation of signs in an effort to foster adequate information and means of expression and to promote economic viability of the community while protecting Sauk County and its citizens from a proliferation of signs of a type, size, and location that would adversely impact community or threaten health, safety, or the welfare of the community, including threatening the rural character of the community, the robust

tourist economy, and aesthetic considerations. The appropriate regulation of the physical characteristics of signs in Sauk County and other communities has had a positive impact on the safety and appearance of the community.

7.23 Applicability. The requirements and provisions of this Subchapter shall apply to all signs that are erected, relocated, structurally altered, maintained or reconstructed after the effective date of (add date of CB adoption). It shall be unlawful and in violation of this ordinance for any person to erect, relocate, structurally alter, maintain, or reconstruct any sign except in compliance with the requirements of this Subchapter.

7.24 Substitution Clause and Sign Content. Subject to the owner's consent, noncommercial speech of any type may be substituted for any duly permitted or allowed commercial speech; provided, that the sign is legal as expressed in this Subchapter without consideration of message content. Such substitution of message content may be made without any additional sign permits required. This provision prevails over any provision to the contrary in this Subchapter.
