“Hi, my name is Kylee! When I became a mom, I knew I wanted to breastfeed, but for me it didn't go how I thought it would. I pumped to give breastmilk to my daughter by bottle because of latching issues and lack of breastfeeding knowledge and experience. With my son, I went into our journey with more knowledge and a huge support system at home and from WIC. I both pumped and fed him from breast for over 2 years before he weaned! I fell in love with all things breastfeeding and I can't wait to help educate and support YOU in your breastfeeding journey too.”
