

Wheat Week

WISCONSIN

FREE Conservation Education Lessons for Sauk County 4th & 5th Grade Classrooms

What is Wheat Week? Wheat Week is a series of five lessons delivered over the course of one week. County Land Resources and Environment staff will educate students about water, soil, energy, systems, wheat and how these topics impact our daily lives.

Approximately 1 hour lessons are aligned with Next Generation Science Standards. All supplies are provided!

Any Sauk County School can request Wheat Week. Teachers are asked to plan together so several classrooms can receive the same lessons each day

- Day 1: What is Wheat?
- Day 2: Water in our World
- Day 3: Amazing Soils
- Day 4: Wheat DNA
- Day 5: Wheat Energy
