

VENDOR	INITIAL COST	ANNUAL SUBSCRIPTION	LIMITATIONS	Advantages
AIMS (AutoMon)	\$7,000	\$6,000	They do not have a specific task reminder. Does not have a current integration for UA; not able to perform all preferred functions	System is web based, hosted on Microsoft Azure Government Works with most browsers and Ipads.
Avatar	\$0 (based on license availability through DHS)	\$0	Designed for medical and treatment services; interface would be additional; considerable time would go into customization and set up; not able to perform all preferred functions	
FivePoint Solutions	\$21,400	\$6,000	More expensive initially, but cheaper than some other vendors; annual cost is comparable to other vendors	System is web based, hosted on Microsoft Azure Government They do have an integration for UA with Averhealth They are building a task reminder workflow into the system. Allows for outside agencies such as Probation and

				Parole to have specific access. They are working to integrate with the State Core System.
Zuercher	\$0 (based on law enforcement purchase)	\$0	Not designed for CJCC programs; interface w/ lab would be additional; considerable time would go into customization and set up; not able to perform all preferred functions	Is part of the new system the Sheriff's Department will be using.
